Louisvittie, Ky. Oct 17.—In one of the prettiest and closest finishes of the meeting. T M Green won the handicap at six furlongs, the feature of the card at Churchill Downs to-day, defeating Royal Captive and Melisande. The finish was so close that the public did not know who won until the numbers were run up, and when Green's number flashed out there was great cheerhood war of 1890. Such a condition, it is shown, would mean heavy losses and no possible chance for success. The two big leagues now operating in barmony have an emergency war fund of nearly \$1,000,000 laid away for just such opposition. ing.

Meliande broke in front and Koerner let her take a two length lead to the upper turn, when T. M. Green and Royal Captive an emergency war fund of nearly \$1,000,000 laid away for just such opposition as Fletcher is planning, so that in case of a clash there would be some tail hustling for the control of playing talent. The promoters of the outlaw circuit are taking advantage of the present excitement over the post-season games to perfect their plans, but as soon as the games are over it is said there will be an accounting and the big fellows will take action. Fletcher will be conveiled to show his hand both moved up fast on the outside. All three boys were riding hard through the stretch and Green, responding gamely to the whip, got up to win by a head from Royal Captive, who in turn was a head before Melisande.

Coster, however, did not continue this kind of fighting long, for at the bell he was weak going to his corner from a severe body punching which the Jersey boy gave him.

Coster throughout the contest used all sorts of foul tactics and was hissed and hooted by the crowd. In mostly every round he held on in a clinch and the referee had a hard time pulling the boys apart coster on the breaks was looking to land a knockout, but the Jersey boy was too clever and shifty and ducked several vicious swings. In the first round Burns sent a right swing to the mouth which drew the blood In the second round the Jersey boy continued jabbing Coster's mouth and near the end of the round he sent in a right swing to the law which sent Coster to the ropes.

In the third round Burns continued to fared poorly as only three favorites were returned winners. Jockey Glass was sus-pended pending an investigation for his ride on Blackford. The summary lico track this afternoon. Form players The summary:

using the roming Grand Price and light ar interregional road races at Savannah to-day regarding Earney Oldfield cabile Association. The recent action of the conest board in disqualifying Oldfield and William H. Pickens, his manager failed to have any effect on the pair except to make them defy the board has week, when

Oliffeld made an unauthorized record trial on the Readville track at Boston. The consensus among a group of en of the Motor Racing Association was that the contest board ought to bar Oldfield, Pickens and all their followers, as well as the cars that Oldfield has been using for exhibitions and races, from all tracks that figure by David & Harry Lippmann. are officially licensed by the contest board. The opposite, southwest, corner of the As the 1919 contest rules of the American same streets, containing about 2,625 square Automobile Association require that every track must be examined by a representative of the contest board before it can be licensed, it is thought that track owners all over the country will not defy the governing body by permitting the disqualified men

to use their tracks and thereby incur the loss of their A. A. A. licenses.

If Oldfield and Pickens choose to disregard the disqualification imposed on them by the A. A. contest board and try to embark on an outlaw career, such as they did a few years ago, when they had incurred the displeasure of the American Automobile Association authorities, it is not thought by well posted men that the pair will be able to get the use of as many tracks as they did before. When the pair were running outlaw meets a few years ago they confined their efforts to the smaller cities and towns where there were no automobile clubs that were affliated with

the national organization. At that time the track owners with very few exceptions were willing to rent their courses to Oldfield for his affairs as there were no local clubs in their cities to enter protests against the outlaw and unsanctioned meets. At the present time ever, there are automobile clubs affiliated with the American Automobile Association at practically every city in the country where there is a horseracing frack that could be used for automobile racing and the prospects for outlaw Oldfield race meets are far less bright than was the

Louis Wagner, Felice Nazzaro and Ralph De Palma, the Fiat team for the grand prize race, started for Savannah yesterday. Coleb S. Bragg, the well known amateur driver, accompanied them and will act as team manager until Vice-President E. R. Hollander of the Fiat Automobile Company arrives at Savannah on November 1 or 2. The three Fiat racing cars and four practice machines were shipped to the Georgia city on Saturday by the steamer City of Savannah of the Savannah Line. One of the four practice cars is the machine Mr. Bragg drove at Los Angeles when he defeated Oldfield in his big racing car.

J. S. Josephs, president of the Fiat company, and Mr. Hollander drove up to the Fiat American plant at Poughkeepsie on Sunday with Louis Wagner, Felice Nazzaro and Vincenzo Lancia, who drove Fiat cars in the Vanderbilt cup races of 1995 and 1998. They inspected the new factory and tried out the new Fiat model which is being produced at the Poughkeepsie plant for the American market. American market

Mr. Weber is a veteran of the automobile business in the West and was so successful as Chicago agent for a well known car that he was assked five years ago to take the New York agency, but he preferred to remain in the Western metropolis. His brother Charles Weber, succeeds him at the head of the Palmer-Singer branch at Chicago.

According to James A Braden of the Diamond Rubber Company there is already a considerable demand for aeroplane tires and indications point to a growing demand in the near future. The Diamond people say they are turning out quite a number of tires to meet the demands of many of the prominent bird men. The Diamond aeroplane tire is made in two types, one with the resultation rubber tread and the other with a tread of chrome leather.

Some of the aviators who have equipped their machines with the Diamond product are Curtiss, the Wright brothers. Burgess, Johnstone and Kirchener. When in actual use aeroplane tires come in for rather severe service. The sudden momentum in getting a machine under way and the shock of alighting are hard on the tires.
